

Katalambano

Suju overhears the conversation between Wan and Styles. He decides to step inside and give them some words of wisdom.

Suju: I am glad to see that you two warriors have learned how to settle your differences.

Believe it or not, you two are the primary reason why the Katalambano still exists today.

You two are the backbone that the Katalambano builds its foundation from, also the head and tail of a coin which causes its currency of life to continue to grow. It had seemed that Karkase had ruined the reputation of the Katalambano, and even I was growing weary in faith. I continued to pray each day to the Father above and he spoke to me and told me that the storm was over. “A false witness shall not be unpunished, and he that speaketh lies shall not escape.”

Nick: That’s deep, Suju. Warriors, gather around. I have something to say.
